

THETA DELTA CHI

Theta Deuteron charge of Theta Delta Chi was able to record 1954 as another successful year. Rush Week, 'way back in September, was an auspicious sign; we added nine new men to the registers, who have since distinguished themselves in such activities as the Debating Society, Bridge Club, the Freshman football and track teams, and the Dean's list. Nor have the brothers been without credit: Dan McNally held the position of president of the M.S.E.C.; Ted Chleboski became Vice President of the S.M.S.; Tom Marlow was an active force on the I.F.C.; John Stem earned several medals for marksmanship; Tom Doherty busied himself behind the scenery of Tech Show; Vic Bauer and Ray Cairns handled the management of the intramural softball set-up; Marsh Rogan pitched one-hitters for the varsity baseball team, and Frank Davenport got married.

The house Social Chairman, Dick Neergaard, instituted a plan for subscription beer parties, one resultant being a "Bunny Hop" complete with free carrots and "Rabbit Punch". President Bob Reichard amply filled his duties as Big Brother, while Dick Foster handled the exchequer successfully enough to take a trip South, and Dan Myers, the steward, worked hand in hand with our new cook to keep us all well-fed. Ron Lieber, the charge correspondent, made sure that our monthly copy of *Pogo* arrived on time.

We've always been proud of the fact that we can sleep longer in the morning than most of the people in school, but lately we have realized another advantage of living in a house so close to the Institute; this time, however, the advantage is a matter of aesthetics. From the windows of our back room we have a wonderful view of the new auditorium—veritable fifty-yard-line seats for the roof-pouring. With all this improvement around us, it is indeed difficult not to think of the future; 1954 has been a good year for us, but it seems to be the right time to look forward eagerly to 1955. Here's to next year!

Moore, Carty, Chleboski, Stem, Myers, Cronin, James, Bradshaw, Briggs, Neergaard, Wood, Deibel, Rogan, Congdon
 Bloch, Ganow, Ray, Hill, Smoot, Doherty, Hennecke, Fagon, Bauer, Sandin, G. Strang, Lieber, Peterson
