Theta Delta Chi

"Theta Delta Chi will always be here . . . or will it . . . or what the hell?" "What does TDC have to do with the Institute—or the Institute with me, for that matter?"

These are the vital questions; those that are posed in jest . . . and answered painfully—later. We all ask the questions; pledges ask the most. For the brothers have seen the futility of questioning. Why not? Nobody has the answers . . . and that's just the point: "You do!"

"I What?" . . .

"The answers, Stoopid. There are no books or answer sheets, no lecturers or T.A.'s. It's ALL yours here. It's that simple—not the answers, just their source. It's just you and me, the brothers and the pledges, trying to figure out the Institute, each other . . . and most importantly OURSELVES. Your mother's not here now . . . and I'm not her, either. It's what THEY call 'growing up,' but it's not as meaningless as THEY make it sound.

"Oh, so that's why we have parties—good ones too, like Red Carnation Weekend, Pledge Dance, and Inverse Pledge Dance . . . and STAG PARTY!!—and big brothers . . . and house meetings . . . and thirty-nine intramural sports, and snowball fights with the Phi Betes, and songfests, and a scholarship chairman (?) . . . and PLEDGE TRAINING, and Hell Week (re-named Cool Week, in honor of Joe Cool), and bull-sessions 'till three in the morning—but before an exam!? . . . and resolutions, and feedback . . . and TOOLING?? . . . and a party for the old graduates who did the same things . . . and housebills, and our chef, Paul the Greek . . . hippies, "The CBS Evening News with Walter Cronkite," and a Friday night Creech Feach . . . and election night (and the morning after) . . . and the Super Bowl (!!!!!) . . . and science, and philosophy, and 8.04, 6.01, and 17.21? . . . and the "Real World."

" . . . Sure enough."

"Wait a minute! What am I talking about? Are those the problems? . . . the high-points? . . . or the fun?"
